INTRODUCTORY REPORT.

OFFICE OF THE GOVERNMENT STATIST,
Melbourne, 2nd October 1876.

SIR,

I have the honor to forward herewith the Australasian Statistics for the year 1875.

2. This being the third year of the issue of these statistics, the folding sheet at the commencement now contains particulars for three years. The other tables relate to 1875 only, and are precisely similar in form to those embodied in the Australasian Statistics of 1873 and 1874.

3. The Government of each of the other colonies was, as before, requested by the Victorian Government to supply the information necessary for compiling its portion of these statistics by the 30th June. At this period all the data respecting Victoria were ready, but scarcely any of the other Governments were able to furnish the particulars asked for until long afterwards; and although all have now sent in returns, some have expressed their inability, even at this date, to furnish every item of the very simple though important information sought to be obtained.*

4. Some delay has also taken place in consequence of more than one of the colonies having furnished figures which were inconsistent with those supplied in former years, and its having been therefore necessary to refer these back for explanation or amendment.

5. As the completed returns have been received the figures have been duly entered in the various tables, and the necessary calculations made. The work has thus been kept in a forward state, and within a very short period of the receipt of the last return the whole was placed in the printer's hands.

6. In the Victorian Year Book for 1875, now nearly ready for issue, I have extensively utilized the figures contained in the Australasian Statistics of this and former years. It is not therefore necessary to give a digest of their contents upon the present occasion.

7. These returns, showing as they do the progress, condition, and comparative importance of the respective colonies, are full of interest, and will be found to amply repay the most minute examination and the most careful study.

I have the honor to be, Sir,

Your most obedient servant,

HENRY HEYLYN HAYTER,

Government Statist.

The Honorable the Chief Secretary.

* Whilst this return was passing through the press, information on several material points was received from three of the colonies, and it has been inserted in the tables.

NOTE.—Whilst this return was passing through the press, a table embodying information on a few of the leading points respecting which information is now given was issued from the Government Printing Office of an adjacent colony. By this document the average indebtedness of the people of Victoria on the 31st December 1875 is made to appear to have been 3s. 5½d. per head greater than it really was, figures calculated upon an incorrect basis having been substituted for those furnished by this colony. The table contains many other inaccuracies.

EXPLANATORY REPORT

TABLE I - POPULATION OF THE GOVERNMENT OF THE DISTRICT OF COLUMBIA, 1920-1930

TABLE I - POPULATION OF THE GOVERNMENT OF THE DISTRICT OF COLUMBIA, 1920-1930

I have the honor to forward herewith the accompanying statistics for the year 1930.

This being the third year of the census, the statistics for 1930 are the most complete and accurate yet obtained for the District of Columbia. The population of the District in 1930 was 115,322, an increase of 10,000 over the population in 1920.

The Government of the District of Columbia has the honor to acknowledge the assistance of the United States Census Bureau in the preparation of these statistics. The statistics are based on the results of the census taken on April 1, 1930.

Some delay has also taken place in consequence of more than one of the statistics having been delayed. The statistics for 1930 are the most complete and accurate yet obtained for the District of Columbia.

As the completed statistics have been forwarded to the United States Census Bureau, the Government of the District of Columbia has the honor to acknowledge the assistance of the United States Census Bureau in the preparation of these statistics. The statistics are based on the results of the census taken on April 1, 1930.

These statistics are the most complete and accurate yet obtained for the District of Columbia. The statistics are based on the results of the census taken on April 1, 1930.

I have the honor to be, Sir, very respectfully,
Your obedient servant,
[Signature]

TABLE II - POPULATION OF THE GOVERNMENT OF THE DISTRICT OF COLUMBIA, 1920-1930

These statistics are the most complete and accurate yet obtained for the District of Columbia. The statistics are based on the results of the census taken on April 1, 1930.

These statistics are the most complete and accurate yet obtained for the District of Columbia. The statistics are based on the results of the census taken on April 1, 1930.

AUSTRALASIAN STATISTICS, 1875.

¹ The amounts in this column are made up of Customs duties, exclusive of duties on the export of gold, drawbacks, &c.; also of excise duties, including licenses imposed for revenue purposes; stamps, other than those for fees of office; legacy, succession, and probate duties; property or income taxes; and any other impost, payable to the General Government, levied distinctly as a tax; but excluding fees, charges, and licenses for special services rendered.

² In calculating these amounts, the average population of Victoria during the year ended 30th June 1875 (806,760) has been taken. For the other colonies, the mean populations shown in the last column of Table I. have been used.

³ According to the Treasurer's Balance Sheet (not audited up to the time of this going to press), the returns for Victoria during the year ended 30th June 1876 were as follow:—Revenue raised by taxation, £1,780,391; revenue not so raised, £2,545,452; total revenue, £4,325,843; total expenditure, £4,572,844. The estimated mean population during the same period was 822,231; therefore the revenue per head was £5 5s. 2¹/₂d.; the expenditure per head was £5 11s. 2³/₄d.; and the taxation per head was £2 3s. 3¹/₄d.

TABLE V.—PUBLIC DEBT, 1875.

Name of Colony.	On the 31st December.	
	Total Amount of Public Debt.	Indebtedness per Head of Population.
	£	£ s. d.
Victoria ...	13,995,093 ¹	16 19 11 ³ / ₄ ¹

Queensland ...	6,948,586	38 6 7
South Australia ...	3,320,600	15 15 7
Western Australia ...	135,000	5 1 1
Total ...	35,869,916	19 8 1 ¹ / ₂
Tasmania ...	1,489,400	14 7 4 ¹ / ₄
New Zealand ...	17,400,031 ²	46 5 10 ³ / ₄
Grand Total ...	54,759,347	23 10 5 ¹ / ₂

¹ On the 30th June 1876 the Public Debt of Victoria was £14,056,822. At the same date the estimated population was 829,284. The amount of indebtedness per head was thus £16 19s. 0¹/₄d.

² The "Accrued Sinking Funds" of New Zealand amounted at this date to £1,100,120. These consist of sums set aside annually for the liquidation of the Public Debt. A large portion of the money has been invested in the various debentures forming part of the debt, and thus so much of the debt may be said to have been already paid off.

¹ These columns, as the heading states, should show the number of miles of telegraph in each colony, i.e., the number of miles of telegraph line. There is, however, reason to believe that some of the colonies return the number of miles of wire instead. This mode of computation causes the colonies which return the miles of line to appear at a disadvantage. In Victoria, at the end of 1875, the number of miles of wire open was 4,510, besides 18½ miles in course of being laid, and in Tasmania at the same date 468 miles of wire were open, and 117 miles were being laid.

² Including a private line of railway 5½ miles in length in course of construction by the British and Tasmanian Charcoal Iron Company.

¹ To compute the amounts in these columns the money realized has been divided by the sum of the acres granted and sold. The amounts therefore express the average price realized for all the land parted with, including not only that for which money was paid, but that which was granted without payment.

² These figures do not include land of which the purchase was not completed. The total extent alienated from the Crown at the end of 1875 was 16,349,943 acres. This acreage embraced not only land of which the fee simple had passed to the purchaser, but land in process of alienation under the system of deferred payments. Portion of the latter might revert to the Crown in consequence of non-fulfilment of conditions, &c.

³ The figures showing the Crown lands alienated in New Zealand only refer to those sold under the various Provincial land laws, but do not include confiscated lands sold by the General Government, reserves granted for public purposes, or lands for which titles have been granted to natives. The figures furnished by the New Zealand Government for the Australasian Statistics of 1873 and 1874 contained some of these amounts, and are therefore, by request, cancelled.

* Where asterisks occur, the returns have not been furnished, or are incomplete.

TABLE X.—AGRICULTURAL STATISTICS, 1875-6.—LAND IN CULTIVATION.

*** The Agricultural Statistics in most of the colonies are collected in the months of February and March of each year. The present returns are for those months of 1876. In calculating the rates of tillage per head, the population at the 31st December 1875 has been taken.

Name of Colony.	Number of Acres under Tillage.		Number of Acres under—									
	Total.	Per Head of Population.	Wheat.	Oats.	Barley.	Maize.	Other Cereals. ¹	Potatoes.	Hay.	Vines.	Green Forage. ²	Other Tillage. ³

New Zealand ...	607,138 ⁶	1'62 ⁶	90,804	168,252	27,656	14,655	49,537	...	30,883 ⁶	225,351
Grand Total ...	4,087,436	1'76	1,513,419	348,774	89,576	158,699	34,220	81,658	503,973	15,563	533,213	808,341

¹ Including beans and pease.

² In addition to crops sown for the purpose of being cut green for cattle, this column contains the following areas laid down in permanent artificial grass in the colonies named:—Victoria, 293,178 acres; South Australia, 29,004 acres; Tasmania, 102,023 acres.

³ In the returns of some of the colonies this column embraces land in fallow as well as land under crop. The following are the areas in fallow included in the returns of such colonies:—Victoria, 97,133 acres; South Australia, 303,700 acres; Tasmania, 20,517 acres; New Zealand, 146,414 acres.

⁴ Including 6,454 acres of sugar-cane, of which 3,654 acres were productive and 2,800 acres non-productive. The former produced 2,310,860 cwt. of cane, of which was made 98,715 cwt. of sugar. Including also 41 acres of arrowroot, which produced 46,787 lbs.

⁵ Including 13,459 acres of sugar-cane, 1,674 acres of cotton, 138 acres of arrowroot, 243 acres of bananas, 86 acres of pineapples.

⁶ In the figures for New Zealand, the land under permanent artificial grass, amounting in 1875-6 to 1,770,264 acres, is not included in the land under green forage and in the total number of acres under tillage, as in other colonies. Were it so included, it would bring the land under green forage up to 1,801,147 acres; the total land under tillage up to 2,377,402 acres; and the land under tillage per head of population up to 6'33 acres.

¹ Including beans and pease.

² The agricultural statistics of Queensland do not give the produce of the various crops. The totals have therefore been computed by multiplying the Queensland acreage under each crop by the average produce of the same crop in New South Wales.

³ In the absence of information from Queensland, the New South Wales averages are repeated.

TABLE XII.—LIVE STOCK, 1875-6.

*** The Live Stock Statistics in most of the colonies are collected with the Agricultural Statistics in the months of February and March. The present returns are for those months of 1876.

Name of Colony.	Number of—					Total Number of Stock of all Descriptions to the Square Mile.
	Horses.	Cattle.	Sheep.	Pigs.	Total.
